

OHSAS 18001 Kit

Environmental program implementation and training documentation

About OHSAS

It refers to a series of standards for Occupational Health and Safety Management Systems. OHSAS 18001 sets requirement on occupational and health safety for employees. In addition to the OHSAS 18001 Occupational Health and Safety Management Specifications there is a guidance document known as OHSAS 18002:2000 Occupational Health and Safety Management Systems Guidelines for the implementation of OHSAS 18001. Once you implement processes and procedures that comply with the requirements listed in the OHSAS 18001 document, you can be audited by a third party organization called Registrar such as TUV or UL who will certify your organization to this standard. OHSAS 18001 is generic and is applicable to types of organizations. It can also be integrated with ISO 9000 and ISO 14000 seamlessly. To achieve compliance you can train employees who will drive the implementation internally, or use a consulting firm that can assist in the training and implementation. You can use templates to implement your occupational health and safety program which will meet US OSHA requirements using OHSAS 18001 template kit.

Benefits of OHSAS 18001 Template Kit

- Establish an OH&S management system to eliminate or minimize risk to employees and other interested parties who may be exposed to OH&S risks associated with its activities
- Assure itself of its conformance with its stated OH&S policy
- Demonstrate such conformance to others
- Implement, maintain and continually improve an OH&S management system
- Make a self-determination and declaration of conformance with this OHSAS specification.
- Seek certification/registration of its OH&S management system by an external organization

How can OSHAS help?

The OHSAS specification is applicable to any organization that wishes to comply. Essentially, OHSAS helps in a variety of respects... it helps: minimize risk to employees/etc; improve an existing OH&S management system; demonstrate diligence; gain assurance; etc. The benefits can be substantial.

All forms, policies and procedures are in MS Word format. Presentations are in PowerPoint format.
